1961 INTRODUCTIONS

This year we are introducing two NEW VARIETIES which we believe will be of interest to you. Even with the large number of seedlings we grow each year, it was back in 1947 when we made our last introductions. At that time we brought out Flower Girl which still enjoys its share of popularity, and Queen Charlotte which has won more Division Champs than any other 300 glad.

During our many years of growing and marketing experience, growing varieties of proven merit as well as all the so-called "world beaters" as they came along, we have been afforded the opportunity to evaluate several hundred varieties for color, color saturation, health, productivity, i.e., to evaluate their potential value to the cut flower trade and for the home garden.

Unless a seedling appears to have the essential qualities of a "good glad" and then passes the acid test of acceptance by the cut flower trade, we do not deem it justifies introduction.

In introducing the following two varieties, we feel that both will prove worthy additions to their respective classifications. (Please do not write for exchange or trade of varieties.)

MICHAEL ANN — 442 (Mid-Season Bloomer)

Rose pink . . . white midrib . . . primrose yellow deep in throat. Color would compare well with the old Tivoli, one of the finest pinks ever introduced for the floral trade. Growth habits are similar to Friendship, for tall straight spikes, but deeper in color than Friendship. Opens up to 8 slightly ruffled florets on an 18 to 22 bud spike, excellent placement and very easy cutter. Under field cultivation, with no irrigation, has grown to a height of over five feet. Very healthy variety and heavy bulblet producer. Bulblets germinate readily. Buds hold tight toward stem making this variety an excellent shipper. We have use this variety for the past two years for Dining Car Service on one of the transcontinental railroads. Spikes made up in Monroe, Wash., are shipped to St. Paul, Minn., where they are placed on the diners for return to Seattle, Wash.

I predict an excellent future from the cut flower market for this variety.

Any size bulb \$2.00 each. 10 bulbs any size \$15.00. With sale of bulb only, 10 bulblets \$3.00.

Growers units: 25 bulbs, any size, plus 1/2 pint of bulblets \$75.00.

DOOT — 261 (Mid-Season Bloomer)

Top three petals amaranth rose . . . lower petals edged amaranth rose blending to Naples yellow in throat. This variety in the 200 class is one of the prettiest varieties we have ever grown in the miniatures. Over the period of years that the miniatures have become so popular we have had the opportunity to evaluate most of the miniatures now in commerce along with the many varieties sent us each year for trial.

While the color chart description is not just what every one, including myself, would recognize, we would say, DOOT is a combination of very pale lavender blending into pink and cream, truly a very beautiful variety. DOOT will open 5 on a 20 bud spike, 36 to 40 inches in height overall. These observations from field grown with no irrigation. Florets are of excellent substance, very heavy ruffling and needle pointed petals. Very healthy plant growth.

Stock of this variety is still limited. It has been market tested in the Seattle wholesale market. Florists report that all offerings were quickly snapped up by the better rated designers.

Any size bulb \$2.00. With sale of bulb only, bulblets 10 for \$3.00.

32 no SPRING ~ LISTING

All bulbs carefully selected when packed, are guaranteed to fully meet the Federal Trade Commission standard of Quality. In keeping with trade customs, we give no warranty, expressed or implied, and in no way will be responsible for the results of any planting or forcing of any stock sold, as your growing is beyond our control.

25 bulbs of a size and variety may be purchased at the 100 rate; no one item from the 100 list for less than 50¢. 250 bulbs of a size and variety may be purchased at the 1000 rate. Bulblets: Pint at Quart rate: Half Peck at Peck rate.

All prices are F.O.B. Monroe, Washington. The customer pays all transportation. Minimum order from this list \$3.00. 25% will hold order for future shipment, balance to be paid prior to shipping. All stock subject to prior sale.

RETAIL ORDERS

All orders from the Retail List will be sent prepaid to any point in the United States, Providing your ORDER is not less than \$3.00. For Orders under \$3.00 PLEASE include 50¢ to cover cost of mailing and packaging.

On Cash Orders of \$5.00 to \$8.00 select 5% extra in bulbs of your own choosing. On Orders \$8.00 to \$20.00 select 10% in extra bulbs. Over \$20.00 select 15%. This does not apply to any Orders from the 100 or 1000 Listing, Special Mix or 1961 Releases. Regardless of any discounts your Order receives we always give generous overcount and extras on RETAIL ORDERS.

We have not listed bulblets in the Retail Column. However, should you desire bulblets of ANY VARIETY just add 50¢ or more, and state your wants, we will see that you get your monies worth. Do not send less than 50¢ for any one VARIETY.

one of the most outstanding									

The HOLLAND BUTTERFLY TYPE of Gladiolus is comparatively new to the trade. The exquisite color combinations leave it most impossible to give them a worthy description on paper. The earliness of the BUTTERFLY TYPE warrants those who grow for the Florist or Roadside trade to grow some of these beautiful creations. Even small size make wonderful bloom for the Home Gardener.

C O M M E N T S

Please note: The Miniature Varieties are listed as Large; Medium and Small. Large will be #1-#2; Medium #3-#4; Small #5-#6. Do not Order as size #1-2 or 3 etc. Your order will be made up of equal sizes. If we do have to use more of the lower size in making up your count, the count will be increased. As a rule your order will include more #1 than #2 size, more #3 than #4 size, etc., if stock is available.

The Miniature varieties do not produce the bulblet increase which the Standard varieties do, stocks are slower to build up, causing prices to be slightly higher. To my knowledge our offering of Miniatures cover the widest color range being offered by any grower on the Pacific Coast in commercial offerings. The increased demand in the past 4-5 years by the better designers in the Floral Trade for these "TINY TOTS" has been greatly expanded. If you grow for the Floral Trade and do not grow these Beautiful Little Fellows, it would no doubt pay you well to get a start.

We wish to thank our many customers for their past orders. The many letters of commendation assure us of their satisfaction in the manner we handle their ORDERS.
